Summary: AUGMENTATION REQUIRED. On January 7, 2002, Steven Rusch, Manager of Governmental Affairs and Environmental, Safety and Regulatory Compliance for Stocker Resources, Inc. (Stocker), met with David Gamson, advisor to Cmmr. Brown. Also present were Chris Williamson, Business Unit Manager for BrietBurn Energy Company LLC, and Sandra McCubbin of McCubbin Consulting. Rusch stated that Stocker is a California independent oil production company and that a significant portion of their electric load was created in large part by their efforts to reduce air polluting equipment. Rusch stated that the ability to contract direct access of electricity supply is extremely important to Stocker and that direct access and its competitive rates allow the company to remain competitive. Rusch stated that Stocker supported the current suspension date and encouraged the Commission not to make that date retroactive. With respect to exit fees, Rusch stated that Stocked does not believe they should be levied on businesses who made prudent business decisions to sign up for competitive electric rates under an approved set of rules. Rusch stated that all rate payer classes should shoulder the responsibility and that that burden should be calculate based

on the rate classes in place prior to the Commission rate increases in 2001.

Summary: AUGMENTATION REQUIRED. On January 7, 2002, Chris Williamson, Business Unit Manager for BrietBurn Energy Company LLC (BreitBurn), met with David Gamson, advisor to Cmmr. Brown. Also present were Steven Rusch, Manager of Governmental Affairs and Environmental, Safety and Regulatory Compliance for Stocker Resources, Inc., and Sandra McCubbin of McCubbin Consulting. Williamson stated that BreitBurn is a California independent oil production company and that direct access allows the company to remain competitive. Williamson noted that the company is not able to pass on costs of producing oil. Williamson questioned any mechanism that would create a 'retroactive' change back to bundled service after the purchase of kilowatts from a third party has already been made and questioned whether the state would force the ESP to refund monies owed, and then force the utility to sell those same kilowatts.
